

~~CONFIDENTIAL~~23rd April, 1959SECOND CORRIGENDUM  
to the ADDENDUM to  
COCOM Document 3416.35/3COORDINATING COMMITTEE*J. General*SECOND CORRIGENDUMTO THE ADDENDUM TORECORD OF DISCUSSIONONITEM 1635 - ALLOY STEELS9th April, 1959

DELETE paragraph 3 and substitute the following text:

3. In response to the German Delegate's proposal regarding the phrase "containing 50% or more iron", the United Kingdom Delegate stated that he would prefer that this phrase should be inserted in the general heading in order to govern all the sub-items, as follows:

Alloy steels, containing 50% or more iron, as follows:  
(See Interpretative Note No. 6.)

- (a) Containing
  - (1) 10% or more molybdenum (but 5% or more molybdenum in any alloys containing more than 1% chromium); or
  - (2) 6% or more cobalt except permanent magnetic metals with a cobalt content of 25% or less; or  
(NOTE: Governments may permit as administrative exceptions exports of small quantities of narrow strips for watch springs. Such shipments should be reported in the monthly statistics.)
  - (3) 1.5% or more niobium and/or tantalum;
- (b) Nickel bearing steels n.e.s. containing a total of x% or more of alloying elements, except such steels containing less than 0.4% titanium or niobium-tantalum;
- (c) Precipitation hardening steels, containing 4% or more nickel.  
(See Interpretative Note No. 4.)

The Delegate repeated that his Delegation's comments regarding sub-item (b) would be circulated in a Memorandum: COCOM Document 3416.35/4 (see paragraph 2 above).
